ENGLISH LANGUAGE - SECTION A: COMPREHENSION

Read the passage carefully and answer Questions 1 to 5.

At the beginning of the term, students in Senior Secondary Three noticed that many of their study periods ended without much work being done. Some arrived at the library without knowing what to read, while others spent the time chatting. Their English teacher asked them to try a simple reading timetable for two weeks. Each student chose a short text, wrote down one question to answer, and recorded unfamiliar words. The plan did not make every task easy, but it helped the students use their time more purposefully. By the end of the trial, several students said that steady practice had improved both their confidence and their understanding. They also learned that a useful plan should be realistic and adjusted when necessary.
